ACRYLIC ICE

These handmade albums are made in the Italian tradition. The pages are flush mounted photographs with no gutter, and coated with liquid laminate for protection and permanence.

The acrylic ice cover version has a premium scratch resistant acrylic cover, with a metallic print bonded on the underside of the acrylic. The back part of the cover is made with leatherette.

Albums include retouching of all close-up facial images.
Custom first page and interior designs, plus anniversary notes pages.

Parent Album Duplicates

The parent duplicate album is an exact duplicate of the bridal album except in size, and comes with a bonded cover and picture wraparound if desired.
